To Whom It May Concern:

In 1998, Absolute Dance was fortunate enough to come across a company by the name of Sport Court. We were opening up a dance studio and needed flooring that would provide enough support for rigorous physical activity. Sport Court provided the safety, visual and cost effective aspect of what we were looking for. We really liked the idea of having a floating floor that we could easily remove, if we were to relocate.

We are now in our second year of business and are still extremely happy with the flooring. All forms of dance can be done on the floor, taps sound good and it is not slippery. We have also found it easy to keep clean and have found no flaws. We have even expanded and purchased more flooring.

The staff at Sport Court have been extremely friendly and helpful in installing the floor as well as answering any questions or concerns we have. We would and have, highly recommend this flooring to any dance studio or gymnasium.

Sincerely,

Tanja Rosner
