Hi Lee,
Please see below as a testimonial:

“We have had so much success expanding our 10 and Under programming with the additional Sport Court Tennis Courts we recently installed here at the USTA Billie Jean King National Tennis Center.

The consistent bounce, durability, ease of maintenance and its super quick drying time have contributed to positive reviews and experiences for youth and adults alike.

Besides utilizing these courts for sanctioned and unsanctioned match play we offer these courts to our adult parents and guardians to practice with their youngsters before and after their classes so they can see the progress the children are making...and at the same time beginner adults enjoy immediate results on the Sport Courts utilizing the transition balls and smaller racquets!

Moving the courts to various locations has been a breeze, as the court can be broken down and reassembled like a simple puzzle.”

Thanks,
Whitney
