To Whom It May Concern:

Re: Letter of Recommendation – Sport Court Athletic Flooring

Based on our experience, Canada Basketball has no reservations in recommending Sport Court as a company and a product. The company is dependable and has extensive events experience. The courts are affordable, durable and the only approved modular surface for Canada Basketball.

One key to running a successful event is efficient set up and take-down of safe courts for the players. The Sport Court product is incredible in this regard. The courts are remarkably durable while still being easy to handle. Combined with the significant event experience of the Sport Court team, the risk of an unsuccessful event is much reduced.

Sport Court plays a crucial role in the development of our 3x3 competitions in Canada, and FIBA counts on Sport Court for their World Championship and professional World Tour events around the world. Our partnership with Sport Court is central to maintaining the reputation of world-class competitions for Canada Basketball.

At Canada Basketball, we fully appreciate Sport Court products and all they make possible. We do not hesitate to recommend them.

Thank you for your consideration.

Sincerely,

Bryan Crawford
Senior Director, Operations
Canada Basketball
