*Mr. Tom Jones
Sales Representative*

Dear Mr. Jones,

I am writing this letter to advise you of the positive response we have had by our guests and customers to our new decking surrounding the pool area. Many have commented that this application is much cleaner and much preferred to the type of material that previously covered the deck.

We have found that the pool deck has been much easier to maintain as it is washed down on a daily basis and any debris or foreign particles are more readily removed than was the case with our previous deck covering. It would also appear to us that the deck is cleaner, safer and less likely to be subject to any bacterial build up as there no place for the bacteria to grow or develop.

We are looking forward to many years of continued use of this product.

*Sincerely,
Carriage House Inn*

*William Schmidt
General Manager*
