

Hi, my name is Lynn Deschner and I am the owner and head instructor at DanceForce in Kelowna B.C. I have been using sport court dance flooring for the past two years. For twenty two years my biggest problem has been providing a safe surface for my dancers. Sport court not only looks amazing but because I teach jazz, ballet, hip hop and tap it was hard to find a floor that works for all the dance styles. Tap sounds great and the dancers no longer have to worry about slipping. For jazz and ballet the floor is great for executing spins and kicks. The floor is also extremely easy to care for and the products provided are extremely easy to use. The best part is the floor snaps together easily and if I wanted to move I can take the floor with me .

Thanks to Sport Court Alberta for their great floors and their customer service. I would recommend this product to anyone with a dance facility.

Lynn Deschner
