

April 20, 2006

Attention: Brent Marinos – Sport Court Calgary

I wanted to take the time to let you know the impact the purchase of our Sport Court has had for McMaster University, the Mountain Athletic Club Volleyball and volleyball community in the greater Hamilton area.

During our recent hosting of the 2006 CIS National Volleyball Championships the organizing committee received a number of comments of not only how well run the event was but also how great the facility looked. A big portion of this presentation was the Sport Court. The addition of the Sport Court helped create an environment that was spectacular to watch and professional to play in. The players love to play on the Sport Court because of the clarity it provides between the court and the free zone. The fans were in awe from the moment they walked into the building at the overall ambience that the Sport Court provides.

The addition of the Sport Court has helped turn McMaster University's Burrigge Gymnasium into a world-class volleyball facility.

Thank you, for your professional and courteous business manner. You made our purchase as seamless and easy as possible.

Respectfully,

D. Preston
Head Coach – Men's Volleyball
McMaster University
