To whom it may concern,

I am writing this letter regarding the Sport Court flooring we recently acquired for our new dance studio.

Promenade Dance Academy teaches several disciplines, including RAD ballet, hip hop, tap, and jazz. We needed flooring that would be appropriate for all of these disciplines at a price we could afford. We also would need to invest in portable flooring for performances at various venues. We found that Sport Court flooring met all of our needs.

The ballet students find the floor comfortable to work on; the tap students love the quality of sound they get on the floor; the hip hop and jazz students feel secure challenging new jumps and turns because of the natural spring in the Sport Court floor.

Installation was, literally, a breeze. We were plagued by hold-ups by the contractor (a nightmare!). *On the day* we were set to hold our first open house, the contractors didn't have their equipment cleaned out of the main studio (over 1000 sq. ft) until *noon*. We had 4 volunteers (who had never used the product before) installing the floor. *Installation was finished before 2pm*. It just snaps together like children's building blocks – incredible!

Even more exciting is the fact that we were able to save on either renting or purchasing a portable floor for performances at various venues. When we require a suitable floor for performing, we just pull up the size we need and take it with us! No awkward or heavy rolls because the floor can be transported in pieces that are comfortable for us to carry.

The support and service we received was nothing short of excellent. While we were researching our options, they were always available to answer any questions. They made sure the product arrived on time and in excellent condition. We were treated politely and with respect.

We are very pleased with our decision to purchase Sport Court flooring and would highly recommend this product to other dance schools.

Sincerely,

A handwritten signature in cursive script that reads "T. Leveille".
