

10 REASONS WHY~

You Should Consider Sport Court® Surfacing

1. THE PROS USE IT

Professional athletes recognize the importance of playing on safe surfaces. Our suspended surfaces are found in the homes of leading NBA, NFL, Baseball and Volleyball players, as well as at their training facilities.

2. SAFETY

Would you let your kids play basketball in a gym that has a concrete floor? SPORT COURT® suspended game court and tennis court surfacing is designed with vertical-give to provide cushioning unlike hard unforgiving surfaces, such as concrete and asphalt, that offer little support for developing children and athletes.

3. OrthoCush™ / LATERAL FORGIVENESS™

SPORT COURT® surface with OrthoCush™ has been engineered to protect young athletes with developing joints as well as seasoned veterans with tender lower backs. The result of years of research and development, the Lateral Forgiveness™ in OrthoCush™ has been shown to minimize the negative impact forces to the body.

4. ALL-WEATHER

The game will always go on. Play anytime, rain or shine, without birdbaths or intense surface heat. SPORT COURT® surfacing will not flake, blister or crack due to excessive water saturation.

5. COLORFUL APPEAL

Bright, beautiful customized colors are all-weather and UV stable, which makes your court surface hold its quality appearance and new look for years to come.

6. CUSTOM DESIGN, SHAPE AND SIZE

Sport Court® Game Courts and Putting Greens can be custom designed to fit your specifications, no matter what size or shape you need.

7. LOW MAINTENANCE

No resurfacing, repainting or need to squeegee water off. The self draining surface stays clean by allowing water and dirt to drain through. When needed, the court surface can be easily lifted for a thorough cleaning.

8. YOU'LL GET WHAT YOU EXPECT AND MORE

Your authorized Sport Court® Dealer is experienced and well trained. Check their references. With thousands of installations worldwide, Sport Court Inc. has been the industry leader in quality and customer service since 1974.

9. LEADER IN SPORTS FLOORING

Sport Court Inc. is the technological leader in sports flooring products. In addition to providing backyard courts for thousands of families worldwide, SPORT COURT® flooring is used by the NCAA, FIBA, USA Volleyball, IIHF's World Cup of Roller Hockey and many other professional organizations.

10. ALWAYS KNOW WHERE YOUR KIDS ARE

Do you worry about where they are, and what they are doing? Sport Court® Game Courts offer parents an easy solution to the problem; get your kids to hang out in the safety of your own backyard.
