

# Sport Court Tile Installation

**Step 1: Line up the loops & plugs of each tile.**

**Step 2: Overlay the PLUGS on top of the LOOPS and snap them together.  
(see next page)**

**Step 3: Photo shows tiles correctly snapped together.**

**Step 4: Note how the loops of each tile are facing in the same direction.**

**The same method applies when snapping together large sheets of pre-snapped tiles that are already assembled right out of the box.**
