

TISDALE DANCE CENTRE INC.

February 28, 2013

We installed the black response Sport Court tile for our main studio in February 2012. We love this dance floor for all types of dance disciplines! The floor has a nice spring to it and is not slippery. It has nice resistance for tapping and produces a clear tapping sound. It is very nice to turn on and safe for our students.

The floor is easy to clean and produces no dust while dancing on it. It looks shiny , professional and very modern.

The installation process was quite easy and quick!

We have just recently purchased the same tiles for our second studio . This is a great product and the customer service provided to us was “top notch”. We would definitely recommend this flooring for any dance studio.
