

Brent Marinos
Sport Court

Re: The Dinos purchase of a Sport Court system!

Dear Brent,

I just wanted to drop a quick note regarding the Sport Court system that we purchased from you. We have always hosted some very high calibre volleyball events in the past and put on an excellent display with our facility, but ever since we have had the Sport Court system we have elevated our already high standards even greater. We now truly have a great international venue to host volleyball events. The Sport Court gives us that final touch that is needed to put us a step ahead of everyone else.

Sport Court is also a great surface to play on for our athletes because it helps to clearly define the boundaries of the volleyball court, it helps reduce shock making the impact on the knees and the body less, and it helps provide an electrifying atmosphere to play in. As well, the Sport Court is easy to set-up and take-down, transport to other venues, and can be used both indoors and outdoors. Finally, it has helped in our television coverage because it allows the playing surface show up clearly on the t.v. screen.

Again, I just wanted to let you know how pleased we are to have your product and to let you know of the great job you are doing. Thanks!

Sincerely,

Greg Ryan, Head Coach
University of Calgary Men's Volleyball
