

# UNITED STATES FUTSAL FEDERATION

A Non-Profit Organization

April 17, 2005

Mr. Andrew Gettig  
Director, International Sales  
Sport Court  
939 South 700 West  
Salt Lake City UT 84104

Dear Andrew:

I have had the opportunity to be involved with U.S. Futsal, the sport of Futsal and indoor soccer for over 30 years. One of the products that I believe has impacted our sport more significantly than almost any other is the Sport Court flooring, on which our amateur and National Teams now play for all domestic and international competitions.

This surface has allowed us to present our sport more professionally than ever before, both to live spectators and those watching on television. The clean, colorful, attractive surface showcases Futsal as an equivalent, exciting spectator sport along with the other major team games. Additionally, the Sport Court surface provides exceptional traction, playing comfort and cushioning characteristics that are consistent for the players and allows them to perform with confidence and at their best.

The other obvious advantage for our sport is the flexibility provided by the floor's mobility and easy installation. This surface has given us the opportunity to hold major championship events in virtually any arena or convention center in the country. This has also dramatically expanded our capability to host Futsal events for our National Team.

The enduring relationship that U.S. Futsal and the National Team have enjoyed with Sport Court has been a major plus for the growth of the sport and the long-term success of our teams.

Cordially,

Alexander J.C. Para  
President and CEO
